Subject: Week #2 Tox Reports (HW-09, HW-13, HW-18, HW-20, HW-25)

Cindy and Robin -

Per your request - I am forwarding the week # 2 tox reports for the 20 locations sampled by EPA beginning January 30, 2012 thru February 3, 2012.

These are the reports that were provided to Dawn Ioven the R3 tox for her review they include the lab qualifiers, MDL, QL and RL. In addition, Dawn has the supplemental list of MDLs that you provided. Please note that the tox reports may have been missing some "J" values that have since been included in the residential reports.

I will forward these in sets to make sure that I don't overwhelm lotus notes.

I will also follow-up with PDFs of the data packages that the week #2 residents will be receiving. The packages are being distributed beginning this afternoon.

I am sorry for not providing this information prior to distribution of week #1. After I get through week #2 - I will go back and send the week #1 tox reports and residential reports that were provided to Dawn and the residents, respectively.

Once the week #3 data is final, we will be preparing the tox reports and residential reports for review by our Tox, HQs EU and the WMD. I will be sure to send you those reports.

Please feel free to call me with any questions. Thanks - Kelley
